DR. OCTOPUS

"Linear results for celebrating nonlinear brilliance."

I build bridges between people, ideas and possibilities. All of my work circles the same question: how do we create room for people who see, think and move differently — and through that, see possibilities others miss? It has led to international communities, think tanks, books, education programmes and collaborations active in 135+ countries today.

SECTION 01

Results

Initiatives, institutions and work that today live in more than 135 countries.

01 FOUNDATION & COMMUNITY

The Octopus Movement

Founder of a worldwide foundation and community of 11,000+ members across 135+ countries — a movement where people from education, science, art, entrepreneurship, government and civil society work together on complex questions.

02 INSTITUTE

Octopus Think Tank Institute

Developed an international think-tank model where people from radically different disciplines collaborate on societal and organisational challenges.

03 AUTHOR

Octopus Leadership

Author of Octopus Leadership — a philosophical essay on leadership, creativity and humanity in an age of AI and complexity.

04 EDUCATION

Guest Lecturer & Speaker

Guest lecturer and speaker at universities and institutions including New York University (NYU) on leadership, creativity and thinking differently.

05 METHOD

Human Score™

Co-initiator of Human Score™ — a model that helps organisations make human-centred leadership, culture and decision-making visible and measurable.

06 STAGE

International Speaker & Host

Speaker, moderator and chair for organisations, conferences and events on leadership, innovation, human potential and societal impact.

SECTION 02

What gives me energy

- Connecting people who would otherwise never meet.
- Linking creative makers to societal challenges.
- Making new possibilities visible where others mostly see limitations.

SECTION 03

Daily practice

- Connecting creative power to societal questions isn't a new field for me — it's my daily practice.
- Across foundations, think tanks, stages, classrooms and the quiet rooms where decisions get made.
- Leadership · Nonlinear Thinking · Community Design · Speaking · Writing · Facilitation · AI & Humanity

LET'S TALK

If something here resonates — start with a conversation.
